

# WHY IS SAVING ENERGY GOOD?

## THERE ARE TWO BIG REASONS WHY SAVING ENERGY IS IMPORTANT:

### IT'S GOOD FOR THE ENVIRONMENT:

Sometimes creating energy can send harmful pollutants into the air. When we save energy, we're helping keep our air clean and our planet healthy.

### IT'S GOOD FOR YOU AND YOUR FAMILY:

Homes and businesses pay for all of the energy they use. Saving energy can save homes and businesses a lot of money.
